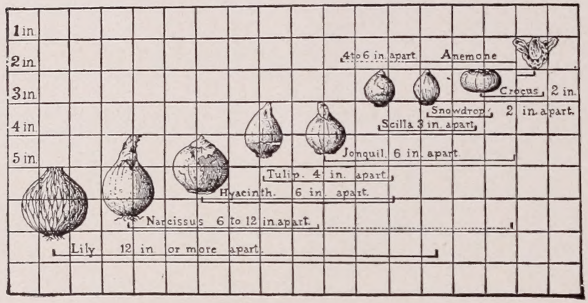
BOLGIANO'S RELIABLE BULBS

WHEN TO PLANT. We would particularly emphasize the fact that **fall** and **not spring** is the time to plant all kinds of spring-flowering bulbs. The larger part of the bulbs offered are ready to ship the second week in September, a few sorts not until November, when they shall be forwarded.

OUTDOOR CULTURE. The bulbs should be planted as soon after September as possible, so that the roots will make good growth before the cold weather sets in. They may be set out from then until the ground becomes frozen. They require a moderately rich soil that has been well manured for previous crops, or else apply well-rotted cow or sheep manure, or bone meal. Fresh manure is injurious to bulbs. The soil should be well drained. A small quantity of sand or fine coal ashes at the base of each bulb will be beneficial when the soil is heavy. How far apart and how deep to plant the different bulbs is shown in the accompanying chart.



When the ground freezes hard, the bed should be covered with 3 or 4 inches of leaves or dry litter. Too early and heavy covering starts the tops prematurely. In the spring the covering should be carefully removed.

INDOOR CULTURE. Plant hyacinths in sandy soil, or make the soil porous with leaf-mould. Never feed the bulbs with manure. Give a good soaking after planting and water once or twice a week during the time the bulb makes roots. Put the planted pots in the ground and cover them 3 to 4 inches deep with soil. This prevents the roots from lifting the bulbs out of the pots. After a few weeks, examine the roots and see if they are down to the bottom of the pot. Take up those that you want to flower early, and put them into a dark place in the house, or keep a paper bag over them. When the sprout is as long as a man's finger, they may be brought to the light. Tulips and narcissus are treated the same as hyacinths, except that when brought in from outdoors or the cellar, they can be placed in the full light at once. Instead of pots, you can use common grape baskets to plant in. Treat same as the pots.

DIRECTIONS FOR GROWING HYACINTHS IN WATER. There is much pleasure derived from growing hyacinths in water; select good, large bulbs (single-flowering preferred) and place them in the glasses, allowing the water just to touch them, place them in the dark until thoroughly rooted, changing the water every ten days. A small piece of charcoal in the bottom of the glass prevents the water from fouling. It is advisable to use tubes in order to prevent the bulb from getting handled, so that when the water is changed the bulb may be lifted out with tube.

HYACINTH GLASSES

Belgian. In all colors. 15 cts. each, $1.50 per doz. **Tye,** or **Low Pattern.** 18 cts. each, $1.75 per doz.
Tubes for Belgian Hyacinth Glasses. 10 cts. each, $1.10 per doz.

Simple Rules for Ordering

We fill orders of all values, from the smallest to the largest, and all receive the same careful and prompt attention.

Free Local Delivery. We Deliver Goods Free in Baltimore, Roland Park, Mt. Washington, Forrest Park, Walbrook, Arlington, West Arlington, Howard Park, and all suburbs around Baltimore that can be reached by electric cars. We deliver to all railroad stations free.

Phone Orders Will Receive Our Prompt Attention. C. & P. St. Paul 2585; Md. Courtland 2053.

When Best to Order. Order at once, so that you can have your bulbs ready to start planting at the proper time.

Time of Shipments. Majority of fall bulbs are ready to ship by the second week in September; a few sorts do not mature until October and November. Unless otherwise instructed, will send early bulbs and plants soon as ready, and late-maturing sorts when in good condition.

Forwarding. The extremely low prices which we make on the choicest bulbs and plants, etc., makes it necessary for purchaser to pay forwarding charges—mailing or expressage, except where specially noted. Where large numbers are ordered, it is much cheaper by express or freight.

Reduced Express Rates. All the express lines in the United States and Canada are now carrying seeds and bulbs at a reduced rate of 20 per cent less than merchandise rates.

Something New. Cost of remittance may, on all orders over $1, be deducted from the amount sent.

GUARANTEE. We guarantee all shipments of bulbs and plants when remittance accompanies order.

Cash Should Always Accompany the Order. We will be responsible for money sent by Post-Office Order, Express Money Order, Bank Draft, or by Registered Letter.

Bills, Coins or **Stamps** (we accept postage stamps the same as cash) can be sent safely by registered letter. Every postmaster is required to register any letter on payment of 8 cents extra postage.

Free Delivery by Mail. We deliver free to any post-office in the United States plants, where specially noted, and flower-seeds as offered in this catalogue by the packet, ounce, $\frac{1}{4}$lb. For half-pounds and upward, add 8 cents per lb.

ROMAN HYACINTHS

DUTCH ROMAN, or BABY

These are small-bulbing varieties of Dutch Hyacinths that produce good spikes of flowers. They are particularly adapted to winter flowering in the house, and give splendid results. A number of these bulbs can be planted in a pot or earthern pan, put away to root and brought out at intervals, thus making a very beautiful display of flowers to be enjoyed for weeks at a time.

FREESIA REFRACTA ALBA

ROMAN HYACINTHS

If by mail, add 6 cts. per doz. to price, for postage

A charming class of Hyacinths. Each bulb gives several flower-stalks, and, by successive planting, they can be had in flower from November to March. The flowers are somewhat smaller than the ordinary Hyacinth, but are very fragrant. The best effect is produced by planting four or five bulbs in one medium-sized pot. The colored Romans flower about two or three weeks later than the white.

Freesia

This is one of the most beautiful of all Cape bulbs, possessing a peculiar grace of form, and its fragrance is most delightful, one pot of five or six bulbs being sufficient to perfume a whole house. As cut-flowers they are extremely valuable; the unexpanded blooms, opening in water, fill the air with most delicate perfume, and their endurance is really remarkable. They force very easily, and can be had in flower at Christmas and continue in succession until June. When potted, these should not be placed in a dark place, like most other bulbs, but should be put directly in the light.

Refracta alba. The flowers are a pure white, with a yellow-blotched throat, and are exquisitely fragrant. Mammoth bulbs, 3 for 10 cts., 25 cts. per doz., $1.75 per 100; extra-large bulbs, 2 for 5 cts., 15 cts. per doz., $1.25 per 100.

Bolgiano's Specially Selected Single Early Tulips

The letter A, B or C, following the name of a variety refers to its time of blooming when planted outdoors. A being the earliest, and those marked B coming into full bloom before those marked A are gone, so that both can be planted together with good effect. The figure that follows shows the average height in inches.

BED OF TULIPS AND HYACINTHS

SINGLE NARCISSUS

Bolgiano's Specially Selected

Single Trumpet Narcissus

Any six sold at the dozen rate, 25 at the 100 rate, 250 at the 1,000 rate; add 10 cts. per doz., if to go by mail.

Emperor and Empress are two of the finest Daffodils. It is but a few years ago that the bulbs of these were very high in price. They are now so reasonable that large plantings can be made at comparatively small cost.

WHITE AND YELLOW

Bicolor Victoria. Largest bulbs, the "Queen of the Daffodils." Very large flowers, of pure white, with rich yellow trumpet. Very stately and beautiful, and one of the most elegant for ladies' corsage wear. The flowers are the largest of this class, very early, and eagerly sought after as one of the finest. 5 cts. each, 40 cts. per doz., $2.50 per 100.

Empress. A magnificent, large variety, bold and erect. A rare beauty. Some give this the palm of being the best of two-colored trumpets. Perianth white and of great substance; trumpet rich yellow. 5 cts. each, 35 cts. per doz., $2 per 100.

Leedsi, Mrs. Langtry. Broad white petals; white crown, edged yellow; very conspicuous; most free-blooming, and recommended for bedding. 5 cts. each, 35 cts. per doz., $2.50 per 100.

Incomparable, Sir Watkin. A grand flower; primrose perianth, often 5 inches across; cup rich golden yellow, elegantly fringed 5 cts. each, 35 cts. per doz., $2.50 per 100.

Stella. Yellow cup, white perianth. 5 cts. for 2, 15 cts. per doz., 75 cts. per 100.

Giant Princeps. Very early. This is one of the most popular winter-flowering and forcing varieties grown. Flowers large; perianth sulphur; an immense yellow rich trumpet. 3 cts. each, 5 cts. for 2, 20 cts. per doz., $1 per 100.

ALL YELLOW

Golden Spur. An extra-large, richly perfumed flower, of robust habit; unsurpassed for pot or garden culture. It is distinguished by its large, spreading, deep yellow perianth and wide trumpet of golden yellow. 5 cts. each, 35 cts. per doz., $2 per 100.

Emperor. A magnificent flower of great substance, having an immense trumpet of clear golden yellow, and broad primrose-yellow perianth. 5 cts. each, 40 cts. per doz., $2.50 per 100.

Trumpet major. Deep golden yellow; forces well. 3 cts. each, 25 cts. per doz., $1.50 per 100.

Glory of Leiden. A grand flower; grand in every way. Color pure yellow. 5 cts. each, 35 cts. per doz., $2.50 per 100.

Poeticus ornatus. (Butter-and-Eggs.) Very early-flowering; about a month earlier than Poeticus; fine forcer. 3 cts. each, 15 cts. per doz., $1 per 100.

Mixed Large Trumpet Narcissus. For growing in masses in flower borders and grass, or to naturalize by woodland walks, in woods, and shrubbery, and by streams and lakes. We strongly recommend them, all being vigorous, free-growing varieties. We offer them at exceptionally low price to encourage liberal plantings. They are perfectly hardy and will flourish and increase. 3 cts. each, 5 cts. for 2, 15 cts. per doz., 75 cts. per 100.

Polyanthus Narcissus

The Polyanthus varieties of Narcissus are not only beautiful, but deliciously sweet-scented, and of the easiest culture; very free-flowering.

If to go by mail, add 15 cts. per doz.

Double Roman. Clusters of white flowers, with double citron-colored cups. It is very early and is grown largely for forcing. 3c. each, 15c. per doz., $1 per 100.

Paper White Grandiflora. Selected largest size; bloom pure white; very beautiful, sweet-scented; may be had in bloom by Christmas. 10 cts. for 3, 25 cts. per doz., $1.50 per 100.

Jonquils

Double Yellow. Sweet-scented. 3 cts. each, 5 cts. for 2, 15 cts. per doz., $1 per 100.

Single Yellow. Sweet-scented. 2 cts. each, 10 cts. per doz., 75 cts. per 100.

Campernelle. Single yellow; large-flowered. 3 cts. each, 5 cts. for 2, 20 cts. per doz., $1 per 100.

NARCISSUS POETICUS

DOUBLE NARCISSUS

PAPER-WHITE GRANDIFLORA

SNOWDROPS

Bolgiano's Specially Selected Double Narcissus

Any 6 sold at the doz. rate, 25 at the 100 rate, 250 at the 1,000 rate. Add 10 cts. per doz. if to go by mail

Alba plena odorata. "The Double White Poet's Narcissus, or Gardenia-flowered Daffodil." Double, snow-white gardenia-flowers, exquisitely scented. 3 cts. each, 15 cts. per doz., $1 per 100.

Incomparable. Double, yellow, large, fine. 3 cts. each, 15 cts. per doz., $1 per 100.

Orange Phœnix (Eggs and Bacon). Beautiful, double, white flowers, with orange nectary. Splendid for pot culture or garden decoration. 3 cts. each, 15 cts. per doz., $1 per 100.

Von Sion. (Telamonius plenus). The famous "old double yellow Daffodil." Rich, golden yellow perianth and trumpet. One of the best forcing sorts, immense quantities being grown for this purpose in Europe and America. Extra-large bulbs, 3 cts. each, 25 cts. per doz., $1.50 per 100.

Mammoth "Double Nose" Von Sion. Large, selected bulbs, capable of producing two and three flowers. 5 cts. each, 35 cts. per doz., $2.50 per 100.

Mixed Double Narcissus. Plant liberally of these for cutting purposes or naturalizing. 3 cts. each, 15 cts. per doz., 75 cts. per 100.

Snowdrop. Galanthus

The charming Snowdrop is the first of all flowers to herald the approach of spring. It can frequently be seen in bloom when the ground is white with snow, as it takes every advantage, and hastens to display its graceful, snow-white bells before the winter has disappeared. In conjunction with Chionodoxas and Scillas, a matchless effect can be produced. As the bulbs are small, they should be planted liberally in order to obtain immediate results. Banks, grassy slopes, edging, or rock-work will suit all of these bulbs. They should not be disturbed often if a fine display is desired.

Elwes' Giant. An exceedingly large and beautiful single variety; flowers snow-white, with emerald-green tube. 15 cts. per doz., 75 cts. per 100.

Single. Pure white, graceful bells; early-flowering. 15 cts. per doz., 75 cts. per 100.

Double. Flowers perfectly double; pure white. 15 cts. per doz., $1 per 100.

Oxalis

Profuse bloomers and very attractive during the winter. Plant three or four bulbs in a pot.

Grand Duchess. New varieties of great beauty; of dwarf, sturdy growth, throwing their large, exquisite flowers well above the foliage, flowering from November until June. Most desirable for winter culture. **Pink, White** and **Lavender.** Any color, 5 cts. for 3, 15 cts. per doz., $1 per 100.

Bermuda Buttercup. One of the finest winter-flowering plants for pot culture; of strong, luxuriant growth. One bulb is sufficient for a 6-inch pot. The flowers are the purest bright buttercup-yellow. 3 cts. each, 15 cts. per doz., $1 per 100.

Bowiei. Brilliant carmine-rose. 3 cts. each, 15 cts. per doz., $1 per 100.

Versicolor. Red, violet and white. 3 cts. each, 15 cts. per doz., $1 per 100.

Mixed, containing a large number of varieties. 2 cts. each, 10 cts. per doz., 75 cts. per 100.

Bolgiano's Specially Selected
Giant Spring-Flowering Crocus

If Crocus are wanted by mail, add 5 cts. per doz., or 15 cts. per 100 for postage

The Crocus is one of the earliest flowers of spring and occupies a prominent place in every garden. When planted as an edging in triple lines of one or more colors, the effect is striking. No spring display surpasses that of Crocus. The broad, wavy bands of golden yellow, striped, purple, or of pure white, when they expand their blossoms in February and March, are incomparable. In lawns, planted in the grass, the Crocus is extremely effective. They are easily planted indiscriminately in the turf with the aid of the dibble —after fall rains have made the sod moist. The flowers and foliage are gone before the lawn needs mowing, so they do not interfere with the summer beauty of the lawn. The flowers of the large-flowering named varieties are ornamental when flowered in pots. Six or eight roots should be planted in a pot about 5 inches in diameter. They will not flower if exposed to heat, nor must severe forcing be attempted.

SCILLAS (Blue Bells of Scotland)

Sibirica. One of our most beautiful hardy spring bulbs, producing in profusion masses of exquisite rich blue flowers almost before the snow has disappeared. If grown in masses, their flowers fairly carpet the ground. Grown in pots, they may be had in bloom from Christmas until April. 5 cts. for 2, 20 cts. per doz., $1.50 per 100.

Bifolia. Most beautiful bright blue flowers borne on short spikes; fine for forcing. 5 cts. for 2, 20 cts. per doz., $1.50 per 100.

WOOD HYACINTHS

Campanulata. Flowers borne on tall spikes, 1 to 2 feet high. Each flower measures nearly 1 inch across and droops gracefully; perfectly hardy; also fine for pot culture. We offer the following colors:

C., Blue. 5 cts. for 2, 15 cts. per doz., $1 per 100.

C., White. 5 cts. for 2, 15 cts. per doz., $1.25 per 100.

C., Rose. 5 cts. for 2, 20 cts. per doz., $1.50 per 100.

CHINESE SACRED LILY

Bolgiano's Specially Selected

CHINESE SACRED LILY

A variety of Narcissus grown in China, where it is called "Shui Sin Far," or "Flower of the Gods." It is grown by the Chinese for the decoration of their temples and as a symbol of good luck.

It produces an abundance of exceedingly sweet, white flowers, with cups of golden yellow color. The bulbs may either be grown in soil or in water. The latter is the more generally adopted method of cultivation. Chinese Sacred Lilies will grow under conditions not favorable to the growth of most other plants.

Place six bulbs in a shallow bowl of water, placing some pebbles or stones in it to give the bulbs a support. Soon the roots will completely cover the stones, and, in about five or six weeks, the bulbs will bring forth their deliciously sweet flowers.

The Chinese Lily bulbs offered by us are large, solid, and well matured, sure to produce delightful flowers. 7 cts. each, 25 cts. for 4, 75 cts. per doz.; basket of 30 bulbs, $1.50; mammoth bulbs, 10 cts. each, 35 cts. for 4, $1 per doz.

GIANT PERSIAN CYCLAMEN

This is a decided improvement over the old variety, being of a more robust habit and a stronger grower. Produces flowers on short, stout stems, and of immense size, often measuring, on well-grown bulbs, 2 inches in diameter. The foliage is also beautiful and it is a charming winter bloomer. Strong-growing plants, 10c. each.

THE WONDERFUL NEW PONDEROSA LEMON

On a plant 6 feet high, eighty-nine of these ponderous Lemons were growing at one time. The tree was blooming, showing at the same time fruits of all sizes. The Lemons have a very thin rind, are exceedingly juicy, and cannot be excelled for culinary purposes. We have the entire stock of this wonderful Lemon, which surely will be popular when its merits become known. Thrifty young plants, 15 cts. each, 25 cts. for 2; strong, one-year-old plants, many of which will fruit this year, 25 cts. each; strong, two-year-old plants, 50 cts. each; extra-strong plants, to bloom and fruit at once, $1 to $1.50 each, according to size.

OTAHEITE ORANGE

A dwarf, compact member of the Orange family. It produces deliciously sweet, white flowers in profusion. After flowering, it bears small Oranges of excellent quality. As a pot-plant it is very novel and beautiful. Good plants, 15 cts. each; strong plants, 25 cts. each; extra-strong plants, to bloom and bear profusely at once, 40 to 50 cts. each, according to size.

CALLA LILIES

Of easiest culture and elegant appearance, they are most acceptable house plants, with their beautiful flowers and handsome foliage. Do not plant small roots; they do poorly and give no satisfaction. Large bulbs, 8 cts. each, 90 cts. per doz.; add 3 cts. per root, if to go by mail. Extra-large bulbs, 10 cts. each, $1.10 per doz.; add 5 cts. per root, if to go by mail. Mammoth bulbs, 15 cts. each, $1.50 per doz.; add 8 cts. per root, if to go by mail.

LILY-OF-THE-VALLEY

The Lily-of-the-Valley is one of the most useful and greatly admired plants grown. The modest bell-shaped flowers of the purest white are highly prized for cutting purposes, and for flowering in pots in the winter they are exceedingly well adapted. They will last several weeks in beauty. By planting them at intervals, a succession of bloom may be had all winter. 5 cts. each, 30 cts. per doz., postpaid.

Bolgiano's Hardy Lilies

No other flowers approach them in their exquisite type of beauty. Planted in the fall, they will bloom abundantly the following year and for years afterward.

Harrisii and Candidum are ready now; all others cannot be sent until November. We book orders now for prompt shipment after we receive them from abroad.

FERNS

NEPHROLEPIS Whitmanii. The new Ostrich Plume Fern. The fronds grow broad and heavy, measuring at least 6 inches across when fully developed, increasing in beauty as they develop. Owing to the fullness of the fronds, even small plants are symmetrical and beautiful. The divided pinnæ, or the miniature fronds, keep growing constantly, showing two distinct shades of green. It is valuable on account of its beauty, ease of culture, hardiness and general adaptability. Fine young plants, 25 cts. each; large, strong plants, 50 cts. each; extra-fine plants, $1 each.

N. Amerpohlii (Baby's Breath Fern). It is so light and fluffy that the least breath of air starts its foliage in motion. Fine young plants, 50 cts. each.

N. exaltata. The old-fashioned Sword Fern. Fine for planting in vases, etc. 15 cts. each; large plants, 40 cts. each.

N. exaltata Bostoniensis (Boston Fern). Good plants, 20 cts. each; strong plants, 50 cts. each, large, fine specimens, 75 cts. to $1 each, according to size.

N. Piersoni (The Tarrytown Fern). In this beautiful new Sword Fern we have a rival of the Ostrich Plume Fern. The fronds are the same size, only not so feathery. Beautiful. 20 cts. each; large plants, 35 cts. to 75 cts. each, according to size.

ARAUCARIA EXCELSA

Norfolk Island Pine

Its symmetry of form, grace, and beauty of foliage are unequaled. As a decorative plant for the house this is one of the handsomest and most serviceable. Fine plants, $1 each; extra-strong plants, $1.25 each.

SMILAX

For using as a green with cut-flowers, it has no equal. Keeps for several days without wilting after being cut. Also fine as a parlor or window plant. 5 cts. each.

CYPERUS ALTERNIFOLIUS

Umbrella Plant

California Giant Sweet Peas

Should be sown in the fall for the largest flowers and the most luxuriant growth in the following spring. Select a well-drained soil, sow in October or November, cover the seed 3 inches, and after the ground is frozen, cover with 2 or 3 inches of manure. In the early spring, take off the manure; they will readily stand a light freeze. Seventy-five separate varieties, or all in a gorgeous mixture. Price, either separate or mixed, pkt. 2 cts., oz. 5 cts., 2 ozs. 10 cts., ¼lb. 15 cts., ½lb. 25 cts., lb. 40 cts.

The Illinois Self-Watering Flower Boxes

Made entirely of metal and will last for years. Will not rust or leak. Require attention about once every twenty days. Made for porches, windows, hanging baskets, jardinieres and special designs

The water is poured into the bottom of the box through a tube extending upward through the soil, thus avoiding the annoyance of the water running over and down on the window or porch below. The sponges, shown in cut through holes in false bottom, convey just enough water to the soil above to give the plants a thrifty and healthy growth. They will not take more than they need. The water compartment holds sufficient to supply the soil for from fifteen to thirty days. Think of it—you can leave home for a visit of two weeks and know that your favorite plants will not suffer for water during your absence. We positively guarantee they will not leak. Wooden boxes soon rot and leak. badly.

Bolgiano's Druid Hill Park Velvet Green Lawn Grass Seed

IS BETTER THAN ANY OTHER LAWN GRASS IN THE WORLD
IT IS USED BY THE LEADING LANDSCAPE GARDENERS OF THE UNITED STATES

If sown this fall will quickly produce a most beautiful velvet green lawn. It is perfectly hardy and will stand the severest winter. In the early spring it will delight you with its luxuriant growth and rich color. Celebrated from Florida to Maine for its quick growth, deep velvet green color and wonderful endurance, through hot, dry spells. Having made the selection of fine lawn grasses our pride for many years, we are able to offer lawn seed **superior in every respect** and acknowledged by all who have used it to be the best.

This choice mixture is the **best** for making beautiful and permanent lawns. It is composed of grasses which are especially adapted for the purpose of producing lawns which retain their rich color and soft, velvet green appearance throughout the entire spring, summer and fall. It is valuable for the formation of lawns in places exposed to the sun, also to partially shaded places where it is difficult to produce good sod. See that shaded places and bare spots are thoroughly worked and enriched with sheep manure before sowing seed. In making up this mixture we are extremely careful to use only the **very best quality seed,** which has been recleaned, the light seed and chaff having been blown out, thus securing the highest grade mixture it is possible to obtain, and seed that will quickly grow. **One lb. will sow 20 x 20 ft., 10 lbs. will sow 50 x 150 ft., 60 lbs. will sow an acre. Lb. 20 cts., 5 lbs. 90 cts., 25 lbs. and over, at 18 cts. per lb.**

SHADY NOOK LAWN GRASS MIXTURE

A popular mixture of grasses best adapted for sowing in shady places where ordinary grasses will not thrive. In nearly all lawns where there are trees, there will be found bare spots which can be made green and bright by using this mixture, if the shaded places and bare spots are thoroughly worked and enriched before sowing seed. **Lb. 25 cts., 5 lbs. $1.** Add 8 cts. per lb., if to go by mail.

WHITE DUTCH CLOVER

This is the best Clover for lawns, as it forms a close herbage and remains green throughout the season. Is also a valuable mixture with grass seed for pasture. Sown in the spring at the rate of six pounds per acre when sown alone; one-half the quantity when sown with other grass. Lb. 25 cts., 5 lbs. for $1. Add 8 cts. per lb. if to go by mail.

PERMANENT PASTURES

We prepare ten special grass and clover seed mixtures for hay and permanent pasture, suitable to every variety of soil.

PULVERIZED SHEEP MANURE

This is **without exception** the very best dressing for lawns. The effect is immediate and lasting. It is the only manure that is absolutely free from weed seeds. It contains no dirt, straw, leaves, or bedding of any kind, being secured from the cemented floors of the Chicago stock-yards. Don't fail to cover your lawns this fall with Sheep Manure. It is also dissolved in water and used as a liquid to nourish all kinds of growing plants. Be sure to give it a trial. **2 lbs. 15 cts., 5 lbs. 25 cts., 10 lbs. 40 cts., 30 lbs. $1, 50 lbs. $1.25, 100 lbs. $2, 200 lbs. $3.50, 2,000 lbs., ton, $30.**

BOLGIANO'S LAWN FERTILIZER

Stable manure should never be used as the top-dressing on lawns, for it always contains large quantities of weeds. We have therefore had prepared for us a special lawn fertilizer which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass, and should be sown broadcast in the spring or fall. **10 lbs. for 300 sq. ft., 500 to 1,500 lbs. per acre. Packages, 10 cts.; by mail, 20 cts. 5 lbs. 25 cts., 10 lbs. 45 cts., 25 lbs. $1, 100 lbs. $2.50, 500 lbs. $11.**

ASPARAGUS ROOTS

New Palmetto. 2-year-old roots, 60 cts. per 100; by mail, 85 cts. $1.50 for 250 roots, $2.75 for 500 roots, $5 per 1,000 roots.

Conover's Colossal. A well-known standard variety. 2-year-old roots, 60 cts. per 100; by mail, 85 cts. $5 per 1,000 roots.

STRAWBERRY PLANTS

Any variety, early, medium, or late, strong, healthy, layer plants, 25 cts. per doz., 85 cts. per 100, $4 per 1,000.

J. Bolgiano & Son, Baltimore, Md. Roland Park, Md., *Aug.* 24, 1907.

Gentlemen:—My lawn, seeded this spring with your Druid Hill Park Velvet Green Lawn Grass Seed is the prettiest I have ever seen. My neighbors say it looks like it had been seeded five years. I cheerfully recommend your seed to all my friends.—Mrs. J. M. Adams, Roland ave., Roland Park, Md.
